Name: Obiljon Rakhimov,
Email: rahimovabul2@gmail.com, LinkedIn: linkedin.com/in/obul-rakhim-3b293a26b, Github: Obuljon

Objective:
Detail-oriented and highly motivated Junior Programmer with a passion for front-end and back-end development. Proficient in JavaScript and TypeScript, with hands-on experience in building web applications using React.js and Node.js frameworks. Strong understanding of database management systems including MongoDB and MySQL. Seeking an opportunity to contribute to dynamic projects while continuing to expand skills in a collaborative environment.

Skills:
- Programming Languages: JavaScript, TypeScript, HTML, CSS, Sass, Pug
- Frontend: React.js, Gulp, Webpack, Tailwind CSS
- Backend: Node.js, Express.js, Nest.js
- Database: MongoDB, MySQL
- Version Control: Git, GitHub
- Operating Systems: Linux (Ubuntu)
- Web server: Nginx
- Containerization: Docker

Projects:
1. Expense Tracker Web Application
   - Developed a full-stack expense tracker application using React.js for the frontend and Node.js with Express.js for the backend.
   - Implemented user authentication and authorization using JWT tokens.
   - Integrated MongoDB as the database for storing user transactions.
2. Blogging Platform
   - Collaborated in a team to create a blogging platform using React.js and Node.js.
   - Utilized MySQL for database management and Sequelize as the ORM.
   - Designed and implemented RESTful APIs for CRUD operations.
3. Personal Portfolio Website
   - Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.
   - Utilized Sass for CSS preprocessing and Pug for templating.
   - Implemented build automation using Gulp and Webpack for bundling assets.
4.Chat Application with NATS Microservices
   - Designed and developed a real-time chat application using Node.js and React.js.
   - Utilized NATS messaging for communication between microservices.
   - Implemented Docker for containerization and deployment of microservices.

Experience:
Intern: Name:Appx group, Location:Uzbekistan, Urganch city
- Assisted in the development of web applications using JavaScript, HTML, and CSS.
- Participated in code reviews and provided feedback to improve code quality.
- Gained hands-on experience with Git version control and GitHub collaboration workflows.
